

Tuning for outdoors

Changing your bow set up

As we think ahead to the outdoor season - do you know how to make sure your bow is working optimally for the change in distances, and possibly a change in arrows?

Over half a day (approx 3 hours) you will cover:

- how to check your present bow set up
- how to set up your recurve bow for optimum performance
- how to change set up for different arrows
- bow tuning methods
- bow maintenance

Please bring all your equipment with you and do not alter your set up or arrows prior to the course.

Note: this course will take place outdoors - so please dress accordingly.

In the event of adverse weather conditions, the course may have to be postponed to the following weekend.

Please complete the application form in full and return with payment to:
